The American Community Survey provided estimated citizen voting age population (CVAP) data at the block group level in a Special Tabulation. Because the MOE can only be calculated using whole block groups, all block groups with more than 50% of the population in a district are included in the analysis. The Red-118 report provides a summary of the block groups used in the analysis.

MOE = Margin of error at 90% confidence level

% HVAP = Hispanic voting age population / voting age population

% HCVAP = Hispanic citizen voting age population / citizen voting age population

SSVR = Spanish surname voter registration (SSVR/VR)

SSTO = Spanish surname turnout (SSTO/TO) data, starting with 2012, obtained from the Office of the Texas Secretary of State.
